

**DHQ Changes
Questionnaire
Medication List
June 2005 Composite**

Question Number	Changes	Rationale
Question 5	Revised to "Have you read the educational materials?"	Comments reported difficulty with this question because at this point in the process the donor has not discussed questions. Added to User Brochure that donor must be asked if their questions have been answered. Could be part of SOP or consent.
Question 7	Deleted "In the past week have you had a headache and fever at the same time?"	Question about WNV symptoms no longer required.
Remaining questions	Renumbered	To designate the order of the questions
Medication List	Change	Rationale
Tegison	Changed Deferral from indefinite to permanent in donor explanation information	FDA request to be consistent with guidance language
Growth Hormone	Deleted reference to 1985 in list and in donor explanation information	FDA expressed concern that FDA guidance does not include reference to 1985

**DHQ Changes
Questionnaire
Medication List
June 2005 Composite**

Growth Hormone	Added permanent deferral to donor explanation information	FDA request to be consistent in stating deferral periods
New Medication Added	Added Unlicensed vaccine	AABB Standards will reinstate the requirement of a 1 year deferral for receipt of unlicensed vaccine. Medical Director discretion if indicated.
Insulin from cows	Revised last sentence in donor explanation information to "There is concern that 'Mad Cow Disease' is transmitted by transfusion."	Revised to reflect current knowledge
Insulin from cows	Added indefinite deferral to donor explanation information	FDA request to be consistent in stating deferral periods
Accutane	Added Amnestein, Claravis, and Sotret	Include additional isotretinoin preparations
