

AABB has partnered with the George Washington University to offer the

AABB Cellular Therapies Certificate Program

Enrollment process and completion of the certificate program

*indicates that information is found in emails sent to students

AABB Marketplace

- Purchase AABB Cellular Therapies Certificate Program using credit card
- Receive receipt with link to the George Washington University (GW) to create a GW account*
- GW account connects you to Blackboard (the learning platform that supports the online Cellular Therapies Certificate Program)

GW

- Create a GW account and password*
- Complete and submit GW online application*
- Receive GW student ID (GWID) needed to set up a NetID* (may take up to 40 days depending on application date)
- Claim NetID and create a NetID/GW email account* (NetID is the first part of your GW email address (XXXX@gwu.edu) and also your username for signing into Blackboard)
- Locate the date listed under the heading "Blackboard" in the email containing the GWID. This is the date when access to the learning modules in Blackboard becomes available*
- Access AABB Cellular Therapies Program in Blackboard, using NetID and password, on the assigned date
- Review the syllabus and complete all program modules, assessments and program evaluation

AABB eLearning Certificate

- Certificate will be emailed to you from eLearning@aabb.org within 7 days following successful completion of the program*
- Print out Certificate of Completion and CE/CME documentation
- Complete follow-up survey (60 days after program completion)*
