This document will provide the information you need to prepare your abstract for submission to the 2018 AABB Annual Meeting.

TABLE OF CONTENTS:

Abstract Categories and Topics ................................................................. 2
Author(s) Responsibilities ........................................................................... 3
How to Submit Your Abstract ................................................................. 3
# ABSTRACT CATEGORIES AND TOPICS

## Blood Bank/Blood Center
- Collections and Product Manufacturing
- Component Processing
- Donor Hemovigilance – Noninfectious Adverse Events
- Donor Hemovigilance – Transfusion Transmitted Diseases
- Donor Apheresis
- Donor Collections
- Donor Recruitment and Retention
- Donor Testing

## Cell Biology, Immunology and Biochemistry (Basic and Preclinical Research)
- Leukocytes (includes Experimental transplantation/immunotherapy)
- Platelets
- Red Cells

## Cellular Therapies and Immunotherapies
- Collections, Processing and Storage
- Hematopoietic Cell Therapy/Transplant
- Cord blood (including cord tissue and perinatal cells)
- Immunotherapies (includes CAR T cells)
- Nonhematopoietic Cell Therapy
- Regulations
- Somatic Cell Therapy
- Regenerative Medicine

## Education
- Competency Assessment
- Professional Development
- Proficiency Testing
- Training

## Immunohematology and Genetic Testing (red cells, leukocytes and platelets)
- Immunohematology (includes serology)
- Molecular Diagnostics and Testing

## Hematology and Coagulation
- Disorders
- Testing and Assay Development

## Information Technology (IT, aka Informatics: EHR, LIS)
- Instrumentation

## Inventories
- Inventory Distribution
- Inventory Management
- Inventory Storage

## Leadership
- Marketing
- Operations
- Strategic Planning

## Management
- Financial Management
- Laboratory Administration
- Personnel Management
- Practice Management
- Quality Management

## New Innovations, New Techniques and New Technologies
- New Innovations, New Techniques and New Technologies

## Patient Blood Management
- Patient Blood Management

## Public Health and Policy
- Public Health and Policy

## Quality
- Quality Assurance
- Quality Control
- Laboratory Safety
- Quality Management Systems
- Standards, Regulations and Accreditation

## Therapeutic Apheresis
- Therapeutic Apheresis

## Tissue Banking and Management
- Tissue Banking and Management

## Transfusion Service
- Evidence Based Medical Practices
- Pediatric Transfusion Clinical Medicine
- Perioperative and Anesthesia Transfusion Practices
- Patient Safety
- Patient Testing
- Recipient/Patient Hemovigilance – Noninfectious Adverse Events (Transfusion Reactions)
- Recipient/Patient Hemovigilance – Transfusion Transmitted Infectious Diseases
- Trauma and Massive Transfusion Practices
- Transfusion Medicine Clinical Practices

---

2018 AABB ANNUAL MEETING ABSTRACT PREPARATION AND SUBMISSION GUIDELINES
AUTHOR(S) RESPONSIBILITIES

Submission of an abstract indicates the following:

1. The author(s) has not published the data in a scientific journal; nor, has the data been accepted for publication before the AABB the abstract submission closing date.
2. The author(s) has not presented the data at another national annual scientific meeting.
3. The accuracy of the submitted abstract is the responsibility of the author(s). Errors made on your submitted abstract are likely to appear in print.
4. Submission of an abstract constitutes a commitment by the author(s) to present it if accepted. Failure to present, if not justified, may jeopardize future acceptance of abstracts. Expenses associated with the submission and presentation of an abstract are the responsibility of the author/presenter. The presenter is required to attend the annual meeting during the day of presentation and must submit the applicable registration fee.
5. The content of the presentation and reference materials must remain the responsibility of the author(s). A commercial supporter may help prepare the presentation, but they should not be biased to advance the proprietary interest of the sponsor.

HOW TO SUBMIT YOUR ABSTRACT

All abstracts should be as informative as possible and follow the guidelines below. (Abstracts that do not follow all format guidelines will be rejected.)

1. FORMAT

Abstracts must include the following sections:

- **Background/Case Studies** – information regarding the objectives/goals or why the study was performed.
- **Study Design/Methods** – information about the key methods utilized in the study.
- **Results/Findings** – summary of the results observed (tables can be used, but figures **cannot be used**). Quantitative data must be included in scientific abstracts.
- **Conclusion** – a statement of the author(s)’ conclusion based on the stated results.

**Note:** Although data should be summarized, abstracts must include specific reference to numbers studied and statistical significance of findings. It is insufficient to state: “The results will be discussed.” or “The data will be presented.” Tables (not graphs) may be helpful in presenting data.
HOW TO SUBMIT YOUR ABSTRACT (CONTINUED)

2. PRESENTATION OPTION

Author(s) must decide which presentation option their abstract falls under:

- Oral or Poster Presentation
- Poster Presentation Only

3. IMPORTANT REQUIREMENTS

Continuing medical education credit is offered for those attending the oral abstract presentations; therefore, the following requirements apply:

- If the presentation involves commercial products it must be objective and rely on scientific methods.
- Presentations must be free of commercial bias for or against any product.
- Generic names should be used whenever possible. The intent is to avoid abstracts submitted for promotional purposes.
- Any human subjects/animal research presented must have been approved by the appropriate agencies and have been in accordance with applicable ethical standards.

4. ADDITIONAL SUBMISSION INSTRUCTIONS

Every effort will be made to publish the abstract exactly as submitted. Although abstracts will be typeset for print and electronic distribution, they will not be edited or corrected by the AABB Staff except as needed to conform to publication style. Please ensure that your submission adheres to the following guidelines:

- The combined length of the abstract body, title, and table may not exceed 2,900 characters, including spaces. (Character includes all letters, numbers and punctuation.) Abstracts that exceed this character limit will be rejected by the online submission site and must be modified before the abstract is officially accepted.
- Titles should be indicative of the content of the abstract. The title should be brief and must be entered in title case (first letter of every word capitalized).
- Author(s) names should have no titles or degrees listed. Author(s) institutions should be listed as precisely as possible (include city, state or country).
- Author(s) should include statistics, when it would permit a clearer interpretation of the data.
- Author(s) can include one table. Graphs images are not allowed.
- All units of measure must be expressed in the metric system; temperatures in Celsius.
- Generic names of drugs must be given, typed in lower case. If the proprietary name is also, given, the first letter must be capitalized.
- Unless an abbreviation is widely known and accepted (Fya, CPD, HIV), the term or phrase must be written in full the first time it appears in the abstract, followed immediately by the abbreviation in parentheses, i.e. hydroxyethyl starch (HES) or filtration leukapheresis (FL). Do not use abbreviations in the title.
- Avoid starting sentences with Arabic numbers.
HOW TO SUBMIT YOUR ABSTRACT (CONTINUED)

• Except in rare cases, no more than ten (10) authors may be submitted and listed with each abstract. As per the rule in medical research publication, each of the authors must have contributed in at least one of three ways: 1) substantial participation in the research being reported, 2) writing of the submission, or 3) review/editing of the paper.

• Author(s) must indicate any commercial involvement, support, or conflicts of interest during the submission process when completing the disclosure section of the submission. The following are examples of how to note this information: “Funded by XYZ Corporation” or “Dr. XYZ is a member/stockholder/grant recipient, etc. of ABC Corporation.”

• Author(s) are strongly encouraged to print a hard copy of their abstract for their records before submitting.

• Avoid use of the first person in descriptions of the authors’ previous work.
  • Unacceptable: “We previously demonstrated that…”
  • Acceptable: “It has been shown…” or “Investigators previously demonstrated that…”

• Do not include any of the following identifying information in the body or title of the abstract text:
  • Name(s) of author(s)
  • Names(s) of institution(s)
  • Geographic locations of institutions or study site(s) (unless a significant element of the study). Some acceptable and unacceptable examples are shown below:
    • Unacceptable: “blood components were obtained from the Pasadena County Blood Center”
    • Acceptable: “blood components were obtained from a regional blood donor center”
    • Unacceptable: “blood bank of a large, tertiary care medical center in the US Northeast”
    • Acceptable: “hospital-based blood bank”
    • Acceptable: “transfusion-transmitted avian influenza in southern Afghanistan”
    • Acceptable: “alloimmunization rates in the Yanomami of southern Venezuela”

5. REJECTION CRITERIA

Abstracts will be rejected by peer reviewers for any of the following reasons:

A) Insufficient data presented
B) Statistical analysis needed, but not provided
C) Stated conclusion cannot be reached from data presented
D) Information previously published or generally well known and documented
E) Format instructions not followed – no conclusion given, etc.
F) Information has limited significance or relevance and interest for national AABB meeting
G) Abstract poorly written, confusing or not clear, or contains major spelling or syntax errors
H) Advertising (Blatant Commercialism)
J) Error in method or data presented
K) Other serious flaws in the judgment of the peer reviewers
6. DISCLOSURE

AABB will list all abstract authors and their disclosures (those with and without a conflict of interest) under the text of each abstract in the TRANSFUSION Abstract Supplement (distributed September 2018).

7. DECISION NOTIFICATION

Authors will receive notification of the status of their abstract via email.

If accepted, abstracts must be presented at the annual meeting. The presenting author must register for the meeting, prepare their poster (or oral presentation if selected) and present during their assigned session time. Failure to do so, without adequate notification, may prevent the authors from submitting abstracts to future meetings. All posters must be mounted throughout the duration of their assigned session time and may not be removed early for any reason.
