
Table of Contents

Preface	xv
About the Editors	xvii
1. Why Blood Management?	1
<i>Jonathan H. Waters, MD, and Mark H. Yazer, MD, FRCP(C)</i>	
Risks of Allogeneic Blood Transfusion	2
Overview of Blood Management Strategies.....	9
References	15
2. Economics of Blood Management	19
<i>Janet F. R. Waters, MD, MBA</i>	
Medical Economic Analysis	20
Modalities of Blood Management	22
Conclusion	30
References	31
3. Development of a Blood Management Program	33
<i>Sherri Ozawa, RN; Elora Thorpe, RN, BSN; Jo Valenti, RN; and Jonathan H. Waters, MD</i>	
The First Step	35
Assembly of a Task Force	36
Steering Committee.....	36
Choice of a Medical Director	38
Blood Management Program Director	39
Development of a Business Plan	39
Components of a Blood Management Program	41
Education and Roll-Out	41
Marketing	42
Conclusion	43
References	44

Blood Management: Options for Better Patient Care

Appendix 3-1. Sample Job Description for Program	
Director	45
Appendix 3-2. Sample Business Plan for a Medically Directed Intraoperative Blood Management Service	50
Appendix 3-3. Components of a Perioperative Blood Management Program.	78
Appendix 3-4. Sample Order Set for Preoperative Anemia Management	79
Appendix 3-5. Sample Order Set for Blood Transfusion	81
4. Transfusion Triggers	83
<i>Lawrence Tim Goodnough, MD; Minh-Ha Tran, DO; and Mark H. Yazer, MD, FRCP(C)</i>	
Red Cell Transfusion.	84
Platelet Transfusion.	89
Plasma Transfusion	103
References	113
5. Blood Management Strategies to Treat Anemia and Thrombocytopenia in the Cancer Patient	119
<i>Patricia A. Ford, MD</i>	
Treatment of Anemia	121
Treatment of Thrombocytopenia	128
Conclusion	133
References	134
6. Pretransfusion Testing.	137
<i>Mark H. Yazer, MD, FRCP(C)</i>	
Patient Identification	138
Sample Collection	139
Type and Screen	141
Crossmatch.	145
Blood Administration	146
Uncrossmatched Blood	149
Massive Transfusion	151
Pretransfusion Testing and Same-Day Surgery.	152

Table of Contents

Compatibility Requirements for Plasma, Platelets, and Cryoprecipitate	154
Conclusion	156
References	156
7. Preoperative Optimization	159
<i>Lawrence Tim Goodnough, MD, and Dale F. Szpisjak, MD, MPH</i>	
Optimizing Hemoglobin Concentration	160
Maximizing Coagulation Function	169
Genetic Coagulation Abnormalities	175
Conclusion	183
References	184
8. Perioperative Blood Sequestration.....	191
<i>Jonathan H. Waters, MD</i>	
Acute Normovolemic Hemodilution	192
Component Sequestration.....	197
References	201
Appendix 8-1. How to Perform ANH	203
9. Intraoperative Blood Recovery	207
<i>Gary D. Reeder, CP, and Jonathan H. Waters, MD</i>	
Collection System	208
Processing System	213
Processing Control.....	217
Cell Recovery Efficiency.....	220
Indications for Blood Recovery	225
Contraindications.....	226
Blood Recovery and the Jehovah's Witness Patient.....	235
Complications of Blood Recovery	235
References	236

10. Quality Systems in the Perioperative Setting 241

Judith A. Sullivan, MS, MT(ASCP)SBB, CQA(ASQ)

Organization	242
Resources	245
Equipment	247
Supplier and Customer Issues	249
Process Control	251
Documents and Records	256
Deviations, Nonconformances, and Adverse Events	259
Assessments	260
Process Improvement	261
Safety	262
Conclusion	263
References	263

11. Topical Hemostatics and Fibrin Sealants 265

Antonio Pepe, MD; Felicia A. Ivascu, MD; Timothy J. Hannon, MD; and Carl I. Schulman, MD, MSPH

Basic Coagulation and Hemostasis	266
First-Generation Topical Hemostatics	267
Second-Generation Topical Hemostatics	269
Hydrogen Peroxide	270
Topical Thrombin	271
Fibrin Sealants	272
Novel Hemostatics	275
Conclusion	277
References	278
Appendix 11-1. Indications, Contraindications, and Properties of Platelet Gel	280

12. Ancillary Techniques 281

Gregory A. Nuttall, MD, and William C. Oliver, MD

Volume Expanders and Choice of Infusion Fluids	282
Deliberate Hypotension	287
Positioning	288
Choice of Anesthesia	291

Table of Contents

Maintenance of Normothermia	293
Conclusion	295
References	295
13. Point-of-Care Testing	301
<i>Gregory A. Nuttall, MD, and Paula Santrach, MD</i>	
Preanalytical Issues in Point-of-Care Coagulation	
Testing	303
Regulatory and Accreditation Issues	305
Hemoglobin	306
Hemostasis	308
Conclusion	322
References	322
14. Postoperative Blood Management Strategies	331
<i>Aryeh Shander, MD, FCCM, FCCP; Tanuja Rijhwani, MBBS, MPH; Robert Dyga, RN, CCP; and Jonathan H. Waters, MD</i>	
Postoperative Blood Recovery	332
Postoperative Anemia Management	340
Hyperbaric Medicine	344
References	351
15. Special Surgical Management: Liver Surgery	355
<i>Vivek Maheshwari, MD; T. Clark Gamblin, MD; and David A. Geller, MD</i>	
Preoperative Evaluation	356
Anesthesia for Liver Surgery	357
Surgical Techniques	358
Topical Agents	371
Summary	372
References	372

16. Special Surgical Management: Obstetrics 375

Egle Bavry, MD, and Jonathan H. Waters, MD

Physiologic Changes of Pregnancy	376
Indications for Transfusion	377
Preoperative Autologous Blood Donation	378
Acute Normovolemic Intraoperative Hemodilution	379
Intraoperative Blood Recovery	379
Pharmacological Treatment	382
Mechanical Maneuvers	386
Interventional Radiology	388
Surgical Techniques	389
References	390

17. Special Surgical Management: Pediatrics 395

Doreen E. Soliman, MD, and Antonio Cassara, MD

Pediatric Care and the Jehovah's Witness Perspective	396
Principles of Bloodless Medicine	397
The Premature Infant	401
Craniofacial Surgery	403
Pediatric Cardiac Surgery	407
Scoliosis Surgery	411
Conclusion	416
References	416

18. Special Surgical Management: Cardiac Surgery 423

*Davy H. Cheng, MD, MSc, FRCP(C); Ann Craig, MBChB;
and Fiona E. Ralley, BSc, MBChB, FRCA*

Preoperative Management	425
Intraoperative Management	426
Postoperative Management	436
Conclusion	437
References	437
