

FDA Recognized Abbreviated Blood Donor History Questionnaire (aDHQ) v2.1

AABB ACCREDITED BLOOD COLLECTION FACILITIES SHOULD USE THE FOLLOWING FDA RECOGNIZED aDHQ v2.1, with PrEP/PEP/ART:

- This aDHQ v2.1 is consistent with the recommendations of [Association Bulletin #20-04](#);
- Assesses donor eligibility for individuals taking antiretroviral medications to prevent sexual transmission of human immunodeficiency virus (HIV), or for treatment of HIV infection:
 - Pre-exposure prophylaxis (PrEP)
 - Post-exposure prophylaxis (PEP)
 - Antiretroviral therapy (ART)
