

## FDA Recognized Blood Donor Educational Material v2.1

**AABB ACCREDITED BLOOD COLLECTION FACILITIES SHOULD USE THE FOLLOWING FDA RECOGNIZED BLOOD DONOR EDUCATIONAL MATERIAL v2.1, with PrEP/PEP/ART including injectable PrEP:**

- This Blood Donor Educational Material v2.1 is consistent with the recommendations of [Association Bulletin #22-03, Updated Recommendations on Donor Deferral for Use of Antiretroviral Medications for HIV Prevention and Treatment including Long-Acting Injectable PrEP and the Impact on Blood Safety](#);
- Assesses donor eligibility for individuals taking antiretroviral medications to prevent sexual transmission of human immunodeficiency virus (HIV), or for treatment of HIV infection:
  - Pre-exposure prophylaxis (PrEP) taken by mouth (oral) and by injection
  - Post-exposure prophylaxis (PEP)
  - Antiretroviral therapy (ART)
