

## **FDA Recognized Full-Length Donor History Questionnaire (DHQ) Flowcharts v2.1**

**AABB ACCREDITED BLOOD COLLECTION FACILITIES SHOULD USE THE FOLLOWING FDA RECOGNIZED DHQ FLOWCHARTS v2.1, with PrEP/PEP/ART:**

- These DHQ Flowcharts v2.1 are consistent with the recommendations of [Association Bulletin #20-04](#);
- Assess donor eligibility for individuals taking antiretroviral medications to prevent sexual transmission of human immunodeficiency virus (HIV), or for treatment of HIV infection:
  - Pre-exposure prophylaxis (PrEP)
  - Post-exposure prophylaxis (PEP)
  - Antiretroviral therapy (ART)
