

How to Read & Navigate the Dashboard

a. Use the Filter Bar

Use the top filter bar to narrow down the data displayed on the dashboard.

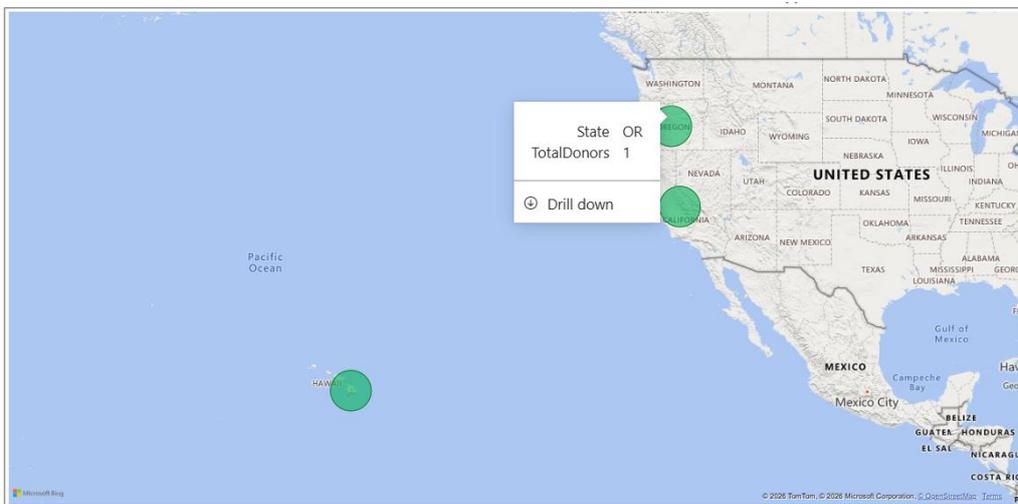

Filters include:

- **State**
- **City**
- **Year**

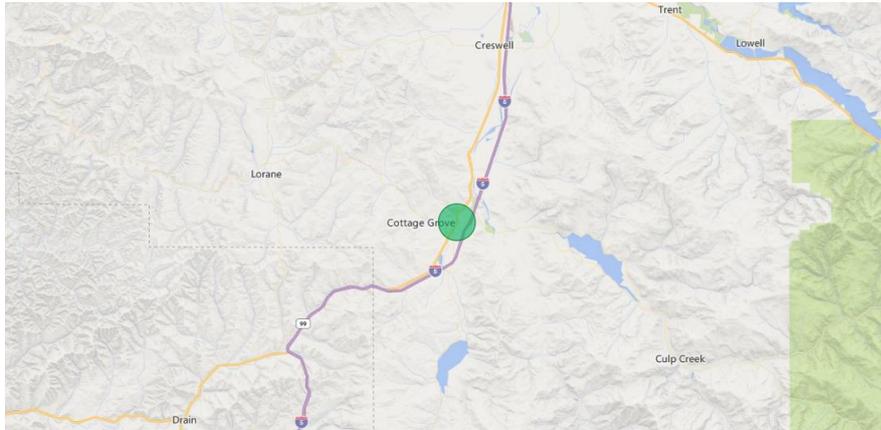

b. Hover for More Information

Move your cursor over any state on the map containing additional details such as the total number of donors and the state information

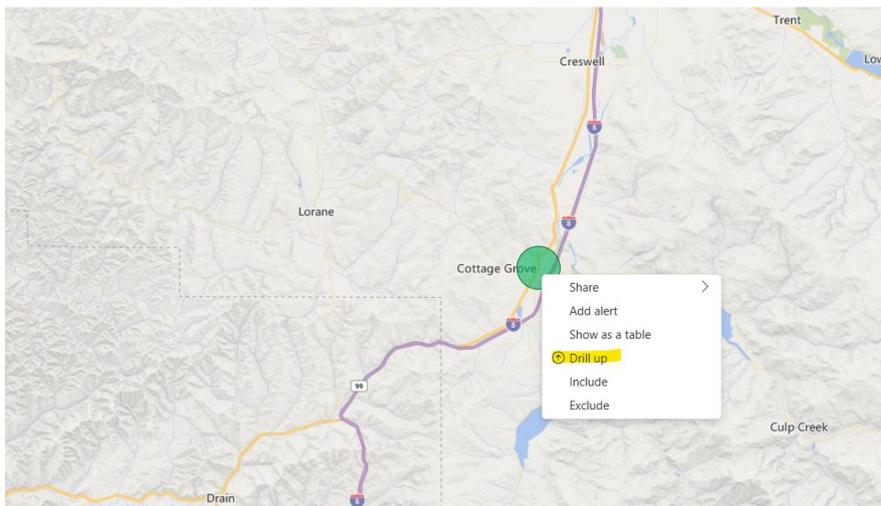

c. Drill Down for Granular Data

You can drill down on any state to explore more detailed information at the city level.

You can drill up from the city view to return to the state level.

d. Dashboard Navigation

The **Dashboard** button at the top opens a view that displays all geographical data along with test results and includes a Year filter.

You can return to the map view at any time by clicking the **Back** arrow at top-right corner.
